NOTICE INVITING TENDER (NIT) FOR REPLACEMENT OF RON AND BENZENE ANALYZER IN MS-BLOCK AT VISAKH REFINERY

HINDUSTAN PETROLEUM CORPORATION LIMITED IN THE STATE OF
ANDHRA PRADESH (INDIA)

1.0 INTRODUCTION:

- 1.1 The MS Block, CCR RON Analyzer and NIU Benzene Analyzer were procured during the 2006-07 VRCFP project and commissioned in 2008-09. These critical instruments have been continuously in service since then, monitoring the Research Octane Number (RON) and benzene content in process streams.
- 1.2 The RON analyzer is integral to overseeing the performance of the CCR Platforming unit by precisely measuring the reformate products' RON. It plays a crucial role in monitoring operating conditions and catalyst activity. Similarly, the Benzene analyzer in the NIU ensures accurate monitoring of benzene levels in the feed line. This data is essential for optimizing hydrogenation reactions in the Reactor to produce benzene-free products. Any downtime of these analyzers could potentially lead to operational constraints.
- 1.3 Both analyzers utilize Near Infrared (NIR) spectroscopic analysis technology and are manufactured by M/s. Guided-wave. Recently, the OEM has indicated that electronic spare parts for these analyzers are no longer available. However, their operational capability has been maintained through regular preventive maintenance (PM) checks and local card repair.
- 1.4 In light of this situation, it is proposed to replace the current RON and Benzene analyzers with a new NIR Analyzer. This upgrade will ensure continued reliable measurement of RON and benzene levels, mitigating the risks associated with obsolescence of current equipment and securing uninterrupted operation of critical process monitoring systems

2.0 BRIEF SCOPE OF WORK:

- 2.1 Design, Engineering, selection, testing, supply, installation, Proper design of sampling system, validation and commissioning of RON and Benzene Analyzer.
- 2.2 Please refer tender document for details.

3.0 TIME SCHEDULE:

- 3.1 Supply (Line Item 1): Delivery period will be 24 weeks from the date of PO or LOA whichever is earlier for supply of Analyzer system and its accessories. Completion of delivery shall be considered upon receipt of all material inside HPCL, Visakh Refinery
- 3.2 Installation and Commissioning (Line item 2): Vendor shall mobilize the resources within 2 Weeks of intimation by M/s. HPCL. Vendor shall complete the I&C within 30 working days from the start of Job.
